

| EQUIPMENT'S IN SWITCH GEAR & PROTECTION LAB | | | |
|--|---|----------------------|-------------|
| Sr. No | Particulars | No. Available | Cost |
| 1 | Relay testing kit type : TRM-100D | 2 | 90000 |
| 2 | Electrical power system simulator with one alternator 5 KVA, 220 V, Coupled to D.C. Motor 7.5 H.P. 220 V. Set . | 1 | 334152 |
| 3 | Induction motor protection demo panel with induction motor (Anshuman make model No ANSH/MFS-VII-XIV) | 1 | 79007 |
| 4 | Laboratory setup for milcroprocessor based motor protection relay (without mm-30 relay) (Ansuhuman make model No. | 1 | 79008 |
| 5 | Alternator Simulation Kit With Relays | 1 | 500000 |
| 6 | Induction Motor Simulation Kit With Relays | 1 | 500000 |
| 7 | Feeder Protection Relay Control Panel | 1 | 150000 |
| 8 | Inverse definite minimum time relay test kit | 1 | Project |
