Head Of Department Message—

With the lead of Vaccination State Authority had decided to partially resume physically .After many months of empty classrooms and silent laboratories both students and staff are back in learning environment with some hesitation and threat .

Planning safe re -entry is challenge. With proper sanitization, masks social distancing safety precautions, increased ventilation, Proper signages, education restarted.

Appreciable efforts of Staff to make students recall their dream and goals, and make them smile with hands on skill. with all due precautions. Despite slow march and policies our staff has found great capacity to do great things for and with students.

Head Of Department Message :

The Covid 19 Pandemic is a public health threat.as a result of an unexpected public health catastrophe, the country as whole is facing new challenges.

The students, educators have adopted flexible learning with use of technology for immediate student and teacher remote learning.

We have been compelled to comprehend, experience, and accept vast and quick change.

All the staff has undergone the training for adoption of Online teaching Learning methodologies, to grasp the sender's intention and take into account context, clear misconceptions, and respond to it.

Teachers have addressed the challenges of developing practical skills through making videos of demonstrating the practical's and communicating with them for solving the problems they are facing for achieving the skills.

As the staff is aware of all problems faced of failure of internet connectivity, electricity, so repeat classes with classroom assignments, videos, are adopted.

All activities of teaching learning right from expert lectures to Virtual visit has been conducted by my efficient staff even in this challenging situation.

Mask making by my skilled students has helped us to serve the society.
